

Terms and Conditions

Last Updated: [Insert Date]

1. Introduction

Welcome to 'mathesis'. By accessing or using our website and services, you agree to comply with and be bound by these Terms and Conditions. If you do not agree, please do not use the website or any services provided.

2. Services

We provide **online mathematics coaching classes** for **B.Tech students** (including regular and supplementary examinations). The classes may include:

- Live online sessions
- Recorded video lectures
- Study materials

3. Registration and Account

- Users must create an account with accurate information before accessing paid content.
- You are responsible for maintaining the confidentiality of your login credentials.
- The website reserves the right to suspend or terminate accounts found violating our policies.

4. Payments and Refunds

- All payments for courses or subscriptions must be made in advance.
- Fees once paid are **non-refundable**, except in cases of technical failure preventing course access.
- We use secure third-party payment gateways for transactions; we do not store your card or bank details.

5. Intellectual Property

All course materials, videos, notes, and other resources are the intellectual property of **Mathesis** or its instructors. Reproduction, sharing, or distribution of materials without permission is strictly prohibited.

6. Conduct and Usage Policy

- Users must maintain respectful communication with faculty and peers.
- Any misuse, abusive behavior, or attempt to disrupt classes will result in suspension or removal without refund.

7. Disclaimer

The content provided is for **educational purposes only**. While we strive for accuracy and quality, we do not guarantee specific academic outcomes or grades.

8. Limitation of Liability

We are not liable for:

- Internet connectivity issues
- Device incompatibility
- Student's academic performance or exam results

9. Privacy

We respect your privacy. Personal data collected is used only for course-related communication. (Refer to our **Privacy Policy** for more details.)

10. Changes to Terms

We may update these Terms from time to time. Continued use of the website after changes constitutes acceptance of the new Terms.

11. Contact Information

Vision and Mission

Vision

To make **high-quality mathematics education** accessible and affordable to every student — empowering learners to master concepts, build confidence, and excel in both regular and supplementary examinations.

Mission

- To provide **concept-oriented and exam-focused** online classes for mathematics.
- To bridge the gap between classroom learning and individual understanding through **clear explanations, examples, and personalized guidance**.
- To create a **supportive learning platform** where students can learn at their own pace and achieve academic success.
- To continuously improve teaching methods with **modern digital tools and real-time feedback**.
